

**Video Capture of Brazil Theft to Steal Medications – November 22<sup>nd</sup> 2017:**

Brazil theft, the reason why my possessions were stolen was because of my medication, Gilenya. Which costed \$2521.11 USD in Mexico. The US understood the expense and the need for medications so they stole it. Video captures:

Person leaving with my Luggage:

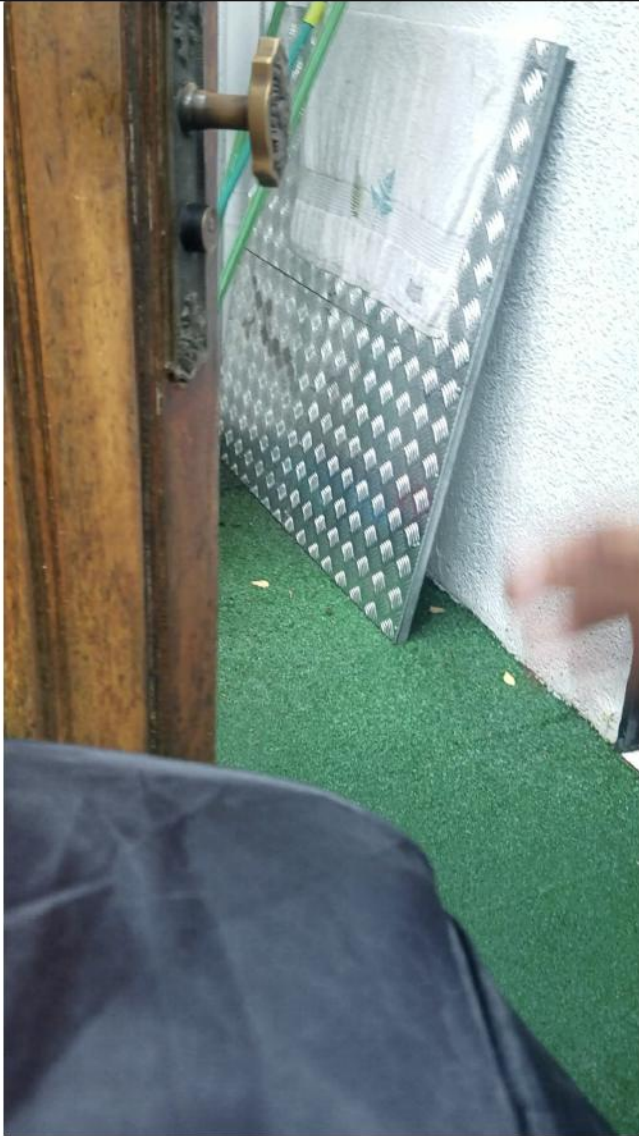

Demonstrating that I am targeted in the theft, how hard it is to steal my specific possessions unless it was to specifically steal my possessions (I recorded a video to show police):

Long walk through down the entrance.

Then the court yard.

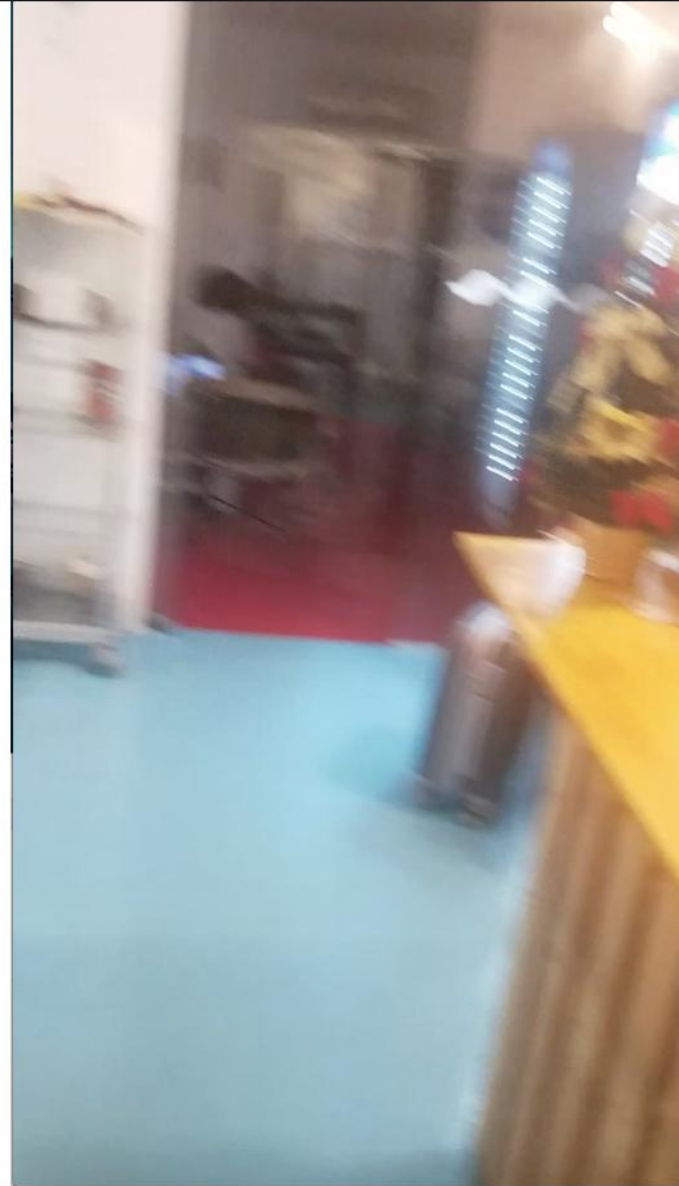

Through the front entrance.

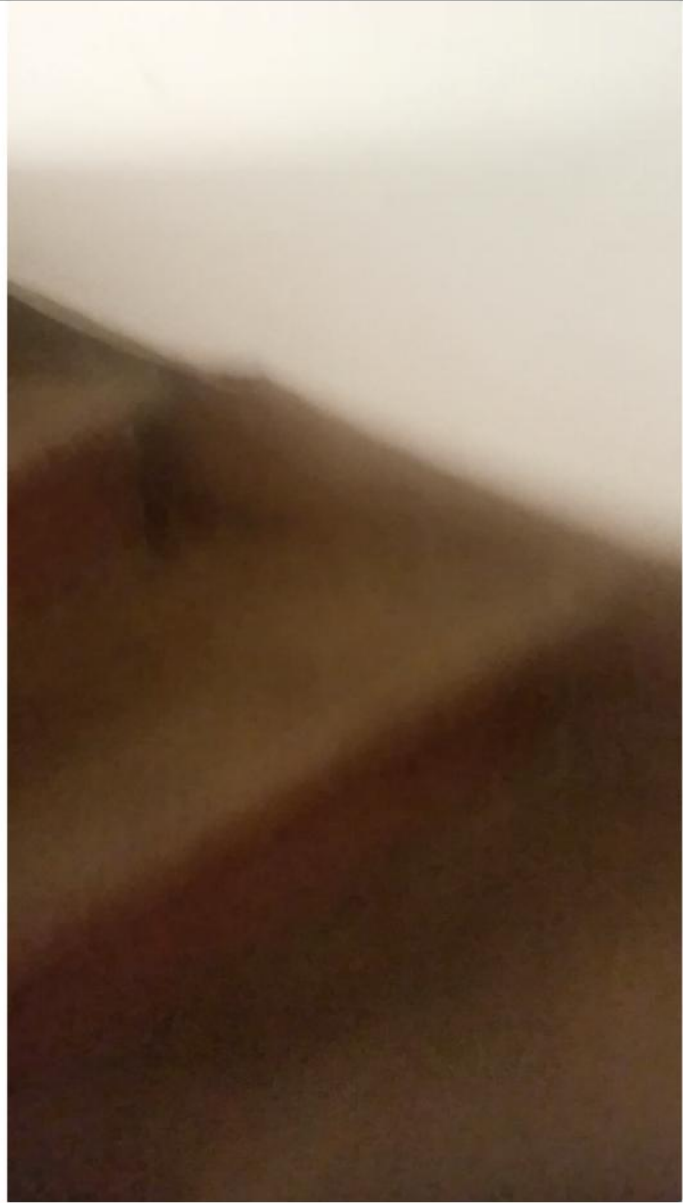

Past reception.

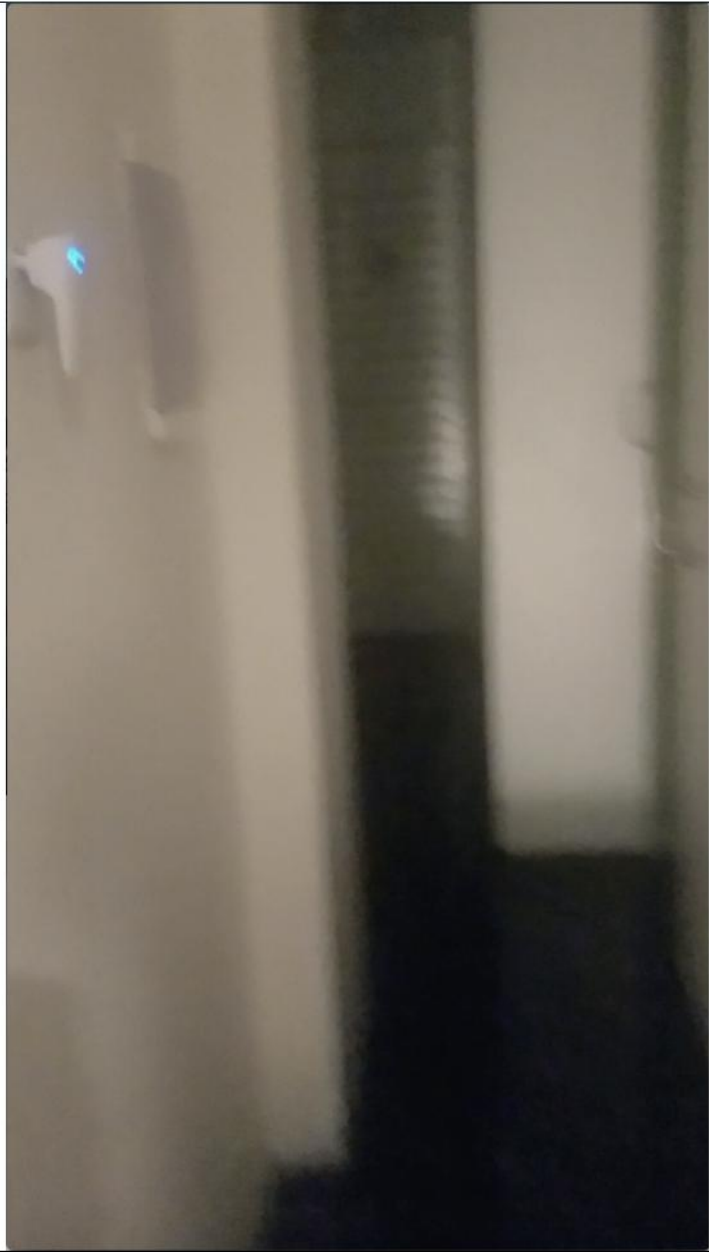

Up the stairs.

My room is the very last room in the second floor.	
--	--

It makes this theft impossible unless I was targeted to steal specifically my luggage for the sake of stealing a medication that costs approximately 2500 USD.
