Your role

How were you involved?

**I'm a victim**

Are you under 18 years of age?

**No**

Have you experienced any other crimes in the past 12 months?

**Yes**

Please describe what happened on these other occasions

**The situation with Case # 2302885/20 reported on 27/01/2020 has escalated to assault with the perpetrator (Dr. Anand Trip) directing other doctors in Addenbrooks Hospital, Cambridge on April 13th and 14th 2020 to perpetuate assault on the victim by withholding medical treatment in sever and gross presentation in an attempt to not admit to clinical fraud. The report for Case # 2302885/20 was pertaining to diagnostic fraud in a medical setting by Dr. Trip but the case has become far more aggressive in a new situation where Dr. Trip is using falsified medical statements to conscript the help of other physicians to physically harm the patient in a clinical setting. I need to speak with an investigator for typical charges of assault against Dr. Trip in a clinical setting. The case is involved with much more evidence. The link below gives some evidence and details of the situation: <http://www.narenjana.com/police/case/>**

Do you have any health, mobility or welfare issues that are making this situation more difficult?

**Yes**

Please provide details

**The doctor is perpetuating assault by mistreating a medical condition (neurodegenerative condition, Multiple Sclerosis) to harm a patient in emergency settings.**

Would you like to be contacted by Victim Support? They're an independent charity that offers free and confidential practical help, emotional support and advice to people affected by crime.

You gave us this map location earlier. Is the address correct? Can you tell us anything else to help pinpoint the exact location?

**The ER/wardroom took place in: Addenbrooke's Hospital Hills Rd, Cambridge CB2 0QQ But the case originated in University College Hospital, Neurology, Queens Square, London in the map location and Dr. Trip resides there.**

At any point, were you on public transport?

**No**

What happened?

Please tell us what happened, and the events leading up to it, to help us identify if an offence has been committed.

**After a short walk to the post office on the 13th on April I came back home and lost all feeling in my arms and legs (typical of MS relapse). When I tried to stand up and walk I couldn't move the entire right side of my body (like a stroke). I called 999, which called an ambulance that transported me to the hospital (Addenbrooks Hospital, Cambridge). The physicians tried denying the gross presentation (which is clear and recorded for future reference) but then eventually cited "your current situation in the UK" and Dr. Trip as the reason for denying medical treatment though its clear that I was in gross clinical need for medications at that point in time. They failed to evaluate the case in hospital (citing Dr. Trip) and discharged me in a severe state with the clear intent and effect of personal harm. So in effect its assault by Dr. Anand Trip by withholding medications through the other physicians at Addenbrooks Hospital, Cambridge while denying gross clinical presentation and in gross medication need. This would qualify Dr. Trip's attempt to hide clinical fraud as a assault in a clinical setting thus warranting a police report/case against Dr. Trip. The link below gives details: <http://www.narenjana.com/police/case/>**

Do you feel race, ethnicity, sex, gender, sexuality, disability or religion were a factor in this crime?

**No**

Threat, abuse or assault details

Was anyone involved subjected to threats or verbal abuse?

**No**

Was anyone involved injured or subjected to unwanted physical contact?

**Yes**

Please give details of any injuries.

**Neurological damage of brain and spinal column through denial of medical treatment in a ER/hospital setting. (like a stroke injury).**

Has anyone involved been targeted by the offender or offenders before?

**Yes**

## Evidence

---

## Evidence

Has the suspect clearly left something at the scene; such as clothing, blood, any other bodily fluids, discarded items, obvious fingerprints or footprints? Or has the suspect caused any damage or made a mess searching?

**No**

Do you have any video, audio or photo evidence?

**Yes**

Please describe what can be seen in your evidence

**Full clear videos of clinical presentation that are counter to the statements by the doctors perpetuating the medical negligence. Audio of physicians noting the presentation of the clinical condition and ignore it along with audio of physicians stating that they consulted Dr. Trip (though they were repeatedly told not to consult with Dr. Trip due to former clinical fraud) to deny help in the medical setting. Some video and audio evidence is given in this link: <http://www.narenjana.com/police/case/> There is far more evidence that could be given to an investigator.**

Does another person or business have video evidence such as CCTV or mobile phone footage?

**No**
