Dear Bala,

I am in the process of contacting attorneys as we discussed. I wanted to clarify with you and Narendra that such attorneys may request that I forward the complaint which Narendra drafted, and of course they are also going to ask me about my own impressions of the matter.

I am aware that Narendra has significant concerns about privacy issues. Therefore, I request that you forward him this email and have him authorize me in writing via email to provide the draft complaint he has prepared to other attorneys, and to discuss his medical issues with such attorneys. This will require disclosing his name and information about the treatment, in addition to providing the draft complaint if it is requested.

I look forward to receiving his email in this regard.

I have nearly completed a report memorializing our discussion and will forward it to you both upon completion.

Thank you.
