Elaboration of written text for question 2 (h) at the end of text.

Nuclear subsystem harm:
In addition to all of this the US used a nuclear subsystem biojunction in a time junction to ~~cause~~ gross morbid physical harm, incomprehensible. To get away with medical/social harm. I have no idea what the technology ~~is~~ except its name and that it causes assault and murder attempts of me.

18

Central victim of a Shyam time bomb/nuclear terrorism/Time junction/Bio junction nuclear sub systems/Tox net bio junction subsystems/Time tech/neutron deficit/brain frame servers/bio frame servers:

The United States and other entities internationally uses a system where they can rapidly change the neurological state of a person. Eg. Time junction change the mood state of a person or cause physical pain using a simulation system in a bio junction nuclear sub system. I believe its called a time junction using a bio junction nuclear sub system/brain frame/neuro junction/neuro share/neuro verse/brain verse/neuro source/brain source/mindscape/brain verse/neuro servers/brain scape/mind scape. The also use a system called "tox net" in a time junction which is described as a atmospheric time junction in regurgitation of a toxicological database to cause physical harm. Tox net regurgitation in a time junction is a replay system of biological effects from a biological toxicity. In my case they used a manganese toxicity (<https://en.wikipedia.org/wiki/Manganism>) from my own condition which causes multiple sclerosis and extreme physical pain around the head from cervical spine lesions in replay to my own body and others.

From what I learned of the system outside of tox net nuclear subsystem it was meant to be a system for basic communication for military users but instead they use it for abusing a clinical patient (refugee) to get away with medical neglect. They use it in a externally hidden way. It evolved as a hidden form of military communication for military users.

The system evolved as far as changing the perception of a person about a particular person or a topic by communication. Then the communication system became a bio terrorism method using tox net. The bioterrorism pertains to how a person could have a change in a particular sensation of a physical feeling that didn't exist before. They use time servers and bio junction sub systems and bio junctions through a time junction to change perception of a person to someone else that is unrelated to the refugee which is me (it called mimicry in a common term). Because their object is mimicry of me to try and make me look like someone else. The neuro junction, neuroservers, neuroverse, and neuroshares to change perceptions and cause extreme physical pain in me using tox net. The system can make a person vomit, make me feel

dizzy, or feel intense pain around the head by time referencing a past instance of the pain and relaying it back to harm me or others. They cause extreme physical pain/psychology shifts/headaches using the system in me and others. They simultaneous bind people to me and give me and them headaches and extreme pain to change their perception of me or others. They physically assault arbitrary groups of people using the system to make me unpopular by relation in a neuroshare. Neuroawake is another part of a neuroshare and a system that keeps people up for days at a time to make people sick; its why I became unconscious on the morning of April 2nd 2023, which then became a situation of physical assault of me where I should have been in a hospital but was physically restricted to do so (by same tech in an external frame as well).

The system is called time verse brain frame harm/terrorism as has been described to me.

The United States/multi nations militaries now uses the system to communicate misinformation, perception changes, time misinformation, and more profoundly they use it for bio terrorism. They used it in addition to medical hospital harm/terrorism from May of 2021 to November 20th 2025 (now). They used it to extreme forms of physical torture (unlike anything seen). Historically it was only severe medical neglect and social isolation.

They also use something called time verse, were the system to cause harm is in a future setting and projected back or to past setting and projected forwards. It is apparent that you can access/view information scenes in the future or past using the system; they call it a time verse.

I have no familiarity with the system, I have never seen it before and no idea what the mechanics of it are (I don't know how it works). I don't have access to any part of the system. They misuse it as a bioterrorism method now.

They have been showing violent scenes on it since May of 2021 in brain frame scenes and they have been even more violent (to extremes) lately (I need help because I don't know where the violent scenes come from and from what time period). I don't know how to stop the violence in the violent scenes.

I have no control over it or where it originates from. They used a military system to harm me. The mechanics of it are described as neuro junction on tox net/neuro servers/neuro shares/neuro verse. It apparently uses something called atmospheric resonance of nuclear energy regurgitation. Cyclical nuclear spectrum regurgitation, neutron depletion/deficit is the effect of the system. The mechanics of it are described as titanium dioxide (or physical matter) in a chemical bath to expend nitrogen which in turn creates a neutron deficit while physically torturing a medically harmed person in a time junction, but in the format of a bio junction nuclear subsystem. I have never seen it only described as such but an object of it.

Shyam time bomb/Nuclear Subsystem Biojunction in a Time Junction since May of 2021, as a Continuous US/multinational homicide Attempt and Abuse System.

Another way that that the US used to harm me is called a nuclear subsystem biojunction in a time junction. I have never seen the system physically or know how it works but it's a biological interface that they use clearly for the sake of getting away with both medical harm and social isolation within the time span of 16.9 years, where the time junction has existed for 4 years and 5 months now. The object appears to be gross physical and psychological abuse to try and cause death or suicide, to both get away with the medical negligence and other types of harm of me by the US. In addition to it this its a gross form of desecration of an innocent person. As if they believe me to be to be a higher entity but I'm simply a person of physical torture by biomedical harm and social isolation. I'm simply human. I myself can't with stand the physical and biological abuse which is incomprehensible from beginning to now. They believe it's a way of for them to supercede me when I am right in all points about everything but they like making up excuses and while abusing me using the subsystem in addition to externally abusing me.

They actually believe that I am replaceable with another person using their subsystem, as if though I have never harmed anyone or committed a crime they could abuse me using the system, cause death using the system, and then pretend to be by identity theft and continue as if they had never abused or harmed be at a all a US specific method of harm. There is international participation in this biojunction system in a time junction. I have no access to the system to stop it nor do I know what it looks like.

I believe it was formed simply as a form of military communication, but they changed it to a highly intensive abuse weapon, where they can in pretence defend the person being harmed by the US. It's a complete act.

The system causes a neutron deficit on earth while creating neutron stars outside of earth in a focal point as I was informed by those using the system in intercom within the biojunction. They said not in a focal point now but every where outside of earth because they kept changing the focal point to everywhere to create new biojunctions in the same time junction now there are neutron stars everything and a massive neutron deficit on earth due to their biojunction system, they call themselves biojunctionologists and that they don't care about earth at all. I am a victim of a biojunctionologist who is the initial medically neglecting doctor and his accomplices (who caused the neutron deficit on earth). They are into genocides as well, they have a genocidal sadistic mentality about life and death. Because they don't like their own lives or don't what to be caught.

They don't like physical interaction, they like up in the air interaction using nuclear subsystems. They indeed don't understand the concept of physical interaction, or lawyers, or police officers, or law itself. So they act in a lawless way in a time junction using a nuclear subsystem to pure abuse after biomedical abuse.

I need to be disconnected from the system in a way that I don't know of because I don't know the mechanics of the system or have ever seen it. Someone said I have to be in time and space itself (time tech) to escape a nuclear subsystem, because the system works through time and space.

I need a medication called zolpidem to escape a portion of the system called neuroawake. That portion keeps me awake in a homicide attempts. The other attempts are car accidents and, they wrecked my car by homicide attempts twice. They have caused continuous homicide attempts by any means in impulsivity.

The time junction and biojunction system is a threat to humanity since it's a nuclear time junction. It causes no life (as in no enjoyment), then real no life (death) in the planet by the users of the system. So I need to be disconnected from the system which I have never seen, by any means. I need to be in a space system in immediacy (in time and space itself). Its November 20th 2025 and I need to be disconnected immediately.
