**Neuro junction/Tox net neuro junction/neuro share/Neuro verse/neuro servers/brain verse/neuro source/brain source/mindscape/time verse/brain scape/mind scape:**

The United States uses a system where they can rapidly change the neurological state of a person. Eg. they change the moods state of a person or cause physical pain. I believe its called neuro junction/neuro share/neuro verse/brain verse/neuro source/brain source/mindscape/time verse/neuro servers/brain scape/mind scape. The also use a system called "tox net" which is described as atmospheric regurgitating of time verse toxicological database to cause physical harm. Tox net regurgitation in a neuro junction/neuro share in a replay system of biological effects from a biological toxicity. In my case they used a manganese toxicity (<https://en.wikipedia.org/wiki/Manganism>) which causes multiple sclerosis and extreme physical pain around the head from cervical spine lesions in replay.

From what I learned of the system outside of tox net it was meant to be a system for basic communication. They use it in a externally hidden way.

The system evolved as far as changing the perception of a person about a particular person or a topic by communication. Then the communication system became a bio terrorism method using tox net. The bioterrorism pertains to how a person could have a change in perception of a physical feeling that didn't exist before. They use neuro junctions, neuroservers, neuroverse, and neuroshares to change perceptions and cause extreme physical pain in me using tox net. The system can make a person vomit, make me feel dizzy, or feel intense pain around the head by time referencing a past instance of the pain and relaying it back to harm me or others. They cause extreme physical pain/psychology shifts/headaches using the system in me and others. They simultaneous bind people to me and give me and them headaches and extreme pain to change their perception of me or others. They physically assault arbitrary groups of people using the system to make me unpopular by relation in a neuroshare. Neuroawake is another part of a neuroshare and a system that keeps people up for days at a time to make people sick; its why I became unconscious on the morning of April 2<sup>nd</sup> 2023, which then became a situation of physical assault of me where I should have been in a hospital but was physically restricted to do so.

The system is called time verse brain frame harm/terrorism as has been described to me.

The United States uses the system to communicate misinformation, perception changes, time misinformation, and more recently they use it for bio terrorism. They used it in addition to medical hospital harm/terrorism from May of 2021 to August 2023 (now). They used it to extreme forms of physical torture (unlike anything seen). Historically it was only medical harm

in medical setting by mistreatment of multiple sclerosis(MS) that leaves me with clinical effects of extreme pain and MS effects.

They also use something called time verse, were the system to cause harm is in a future setting and projected back or in past setting and projected forwards.

It is apparent that you can access/view information scenes in the future or past using the system; they call it a time verse.

I have no familiarity with the system, I have never seen it before and no idea what the mechanics of it are (I don't know how it works). I don't have access to any part of the system.

They mis use it as a bioterrorism method now.

They have been showing violent scenes on it since September of 2021 in brain frame scenes and they have been even more violent lately (I need help because I don't know where the violent scenes come from and from what time period). I don't know how to stop the violence in the violent scenes.

I have no control over it or where it originates from. They used a military system to harm me.

The mechanics of it are described as neuro junction tox net/neuro servers/neuro shares/neuro verse. It apparently uses something called atmospheric resonance of nuclear energy regurgitation. Cyclical nuclear spectrum regurgitation.
