There are clear examples of who led the malice in the US, namely Dr. Evan Murray (second doctor in the "medical doctors causing harm" section) in combination with the other doctors listed. Its known that even within the UK the malice in medical settings was most likely led by US military by Dr. Evan Murray's medical negligence. Dr. Evan Murray is a US military doctor. He started the medical negligence and US military perpetuated it country to country. Many of the illegal internet postings on Google (explained later) are thought have been lead by the US military. Dr. Evan Murray placed this public threat immediately outside of my workplace in the UK (where my asylum/refugee status was fouled by the UK government):

Its Dr. Evan Murray's name on a truck but it's a threat by the US military in the UK.
